Est. Arrival Date:

Proposal Expires:

Qty.	Matrix	Method	Parameter	Detection Limit	Turnaround Time	Unit Price	Discount Price
------	--------	--------	-----------	--------------------	--------------------	---------------	-------------------

Notes: Turnaround time for Au analysis is 5 days for delivered pulp samples. FGC Laboratories will e-mail and fax all data as requested free of charge. Additional limits for Au and Ag can be set for automatic gravimetric finish if AA method is selected and values are met. Quality program can be further discussed with minimum requirements of industry standards (blanks, certified reference standards, repeats/duplicates). I hope that this proposal will meet with your approval, as we look forward to continuing to work together, we certainly appreciate the work you have entrusted to us. If you have any questions or comments, please call me in our Lovelock Laboratory Office at (775) 273-7800

Best Regards,

FGC Laboratory
